How payments will be made

First payment

In most cases contributions due from the start of your self-employment will be collected with the first payment from your bank or building society.

If you have asked us to collect contributions due from the start of your self-employment with the first Direct Debit, the payment may cover more than one month.

If you do not want to pay by Direct Debit from the start of your self-employment or we cannot arrange this, your Direct Debit will start from a current date.

We will send you a payment request for any contributions due from the start of your self-employment to the date

your Direct Debit begins. It can take at least 21 days to set up a Direct Debit with your bank or building society, but we will write to you in advance and confirm the date of the first payment.

Subsequent payments:

- will be collected for as long as you want, and
- will be deducted from your account on or up to three working days after the second Friday of each month except where a bank holiday causes a change in this arrangement.

If you choose to pay monthly, payments will be collected four months in arrears. Each payment will cover either four or five contribution weeks depending on the number

of Sundays in the preceding tax month. Please make sure you have enough funds in your account on the second Friday of each month.

If you choose to pay six-monthly each payment will cover 26 or 27 weeks depending on the number of Sundays in the preceding tax months.

Payments will be collected on or up to three working days after the second Friday in January and July. Please make sure you have enough funds in your account on the second Friday of each month.
